

Topic: The Ancient Mayan Civilization

By: Kate Hsiao

Hello!

Mayan Festival Traditions

Ancient Mayans had some very strange ideas about beauty.

To achieve these ideas they would begin at a very young age.

They pressed boards into the heads of infants to create flatter foreheads. And even dangled objects above their cribs to give them crossed eyes.

When did the Mayan Civilization start?

Origins of the Ancient Mayan Civilization. Much of Mayan history is shrouded in mystery. It is believed today that the Mayan people began to settle in the Yucatan area of what is now Mexico between 2600 BC and 1800 BC. As the centuries rolled on, their culture and religion developed.

Mayan Food

Mayans have many types of food but their famous food is Maize(corn), sweet potato and chilies.

Maize (corn), sweet potatoes, and chilies were staples of ancient Mayan food.

What were Mayans famous for?

The Mayan is a Mesoamerican civilization, noted for Mayan script, the only known fully developed writing system of the pre-Columbian Americas, as well as for its art, architecture, and mathematical and astronomical systems. ... The Ancient Mayan developed the science of astronomy, calendar systems and hieroglyphic writing.

What are famous Mayan buildings?

The Mayan Civilization is famous for its architecture. Many city-states built large palaces, pyramids, and other public buildings that are still standing today. The buildings were covered with carvings and statues to honor their gods as well as to commemorate their kings.

Mayan Population

Classic Mayan Civilization grew to some 40 cities, including Tikal, Copán, Dos Pilas and Río Bec; each city held a population of between 5 thousand and 5 million people. At its peak, the Mayan population may have reached 2 million.

The Roman Empire

by Lucius

When did the Roman Empire exist?

The Roman Empire started in 27 BC and ended in 395 AD.

Where was the Roman Empire?

The Roman Empire started in the village of Latini and spread out to cover most of Europe and part of North Africa.

What famous buildings were in the Roman Empire?

The famous buildings were the Colosseum, Valentino and Bulgaria.

What was the Roman Empire famous for?

The Romans were the first to have money that could be used across the Empire.

They also invented toilets and bathrooms.
This helped to keep the cities clean and tidy
because before the streets were dirty and
smelly.

Any famous or important inventions?

The Roman Empire invented newspapers. These helped give important information about what was happening around the Empire.

The Tombstone Epitaph.

AT A MORTUARY.

IF NOT FORGET THE PLACE.

YESTERDAY'S TRAGEDY.

Three Men Hurling into Eternity in the Duration of a Moment.

Story as was the early days of Tombstone, nothing occurred equal to the event of yesterday. Since the retirement of the Mayor as mentioned and the appointment of W. W. Rupp to fill the vacancy, there has been noted for its quietness and good order. The factions and feuds nearly much dead—now boys when they came to town upon their good behavior, and to peacefully behave were noticed, and it was hoped by our citizens that no more such deeds would occur as led to the killing of Marshal White, one year ago. It seems that this quiet state of affairs was not the calm that precedes the storm that burst in all its fury yesterday, with this difference, that the fighting took place in a different quarter than the one last fall one year ago. This time it struck with the full and awful force upon those who, heretofore, have made the good name of this country a byword and a reproach, instead of upon one officer in the discharge of his duty or a peaceable and law-abiding citizen.

COCHISE COUNTY.

When I saw the report in the paper of the shooting of the three men, I thought that the three men were from the same side, but was not certain. It is only my opinion. Immediately the report was published, I immediately the three men were shot. I saw Frank McHenry with one hand to his head and with the other hand to his side. He was looking at the three men who were shot. He was looking at the three men who were shot. He was looking at the three men who were shot.

Q. At the time of these two explosions, I understood you to say you had your eye on the sidewalk point. Did you see before you heard the explosion? A. Yes, sir; I saw the sidewalk point. The same time the words were being said, it was pointed the first I saw of it as being the sidewalk point.

Any interesting traditions or culture?

The Roman Empire had some interesting, scary, and unusual traditions such as they divided people into groups based on their lifestyles.

Hello everyone. Today I am talking about the Ancient Egyptian Civilization.

When did the Egyptian Civilization start and end ?

The Egyptian Civilization started in 5500 BC and it ended in 334 BC .

Where is the Egyptian civilization?

Ancient Egypt was an ancient civilization of North Eastern Africa. It was located along the lower Nile River which is now the modern country of Egypt.

What did they wear?

Looking nice and being clean was very important to the Egyptians. Almost everyone, men and women, wore jewelry of some type. The rich wore jewelry made of gold and silver, while the poorer people used coppers. Because it was so hot, most people wore white linen clothes. Men wore kilts and women wore a straight dress.

What did they invent?

They invented the toothbrush and toothpaste. Their bread had so much grit and sand in it, they had a lot of problems with their teeth. They invented the toothbrush and toothpaste in an effort to take care of their teeth. They used a wide variety of ingredients to make their toothpaste including ashes, eggshells, and even ground up ox hooves.

What did they invent?

They invented hieroglyphics.

One of the most important inventions of the Ancient Egyptians was writing. They wrote in hieroglyphics. You can learn more about [hieroglyphics here](#). Writing allowed the Egyptians to keep accurate records and maintain control of their large empire.

What did they invent?

With the Nile River playing a major role in the lives of the Egyptians, building ships was a big part of their technology. They originally built small boats from papyrus reeds, but later began to build large ships from cedar wood imported from Lebanon.

What did they invent?

All Egyptians wore makeup, even the men. They made a dark eye makeup called kohl from soot and other minerals. The makeup was a fashion statement, but it also had the side effect of protecting their skin from the hot desert sun.

Where did they live?

The average family lived in a village of sun baked mud houses. The houses were fairly small with few windows or furniture. They had flat roofs that the people would sleep on in the summer when it was too hot inside.

What did they eat?

Their main food was bread. They also had fruits, vegetables, lamb, and goats for food. They had clay ovens to cook in and usually used dishes made of clay. The main drink was beer made from barley.
