

Birds by Hans

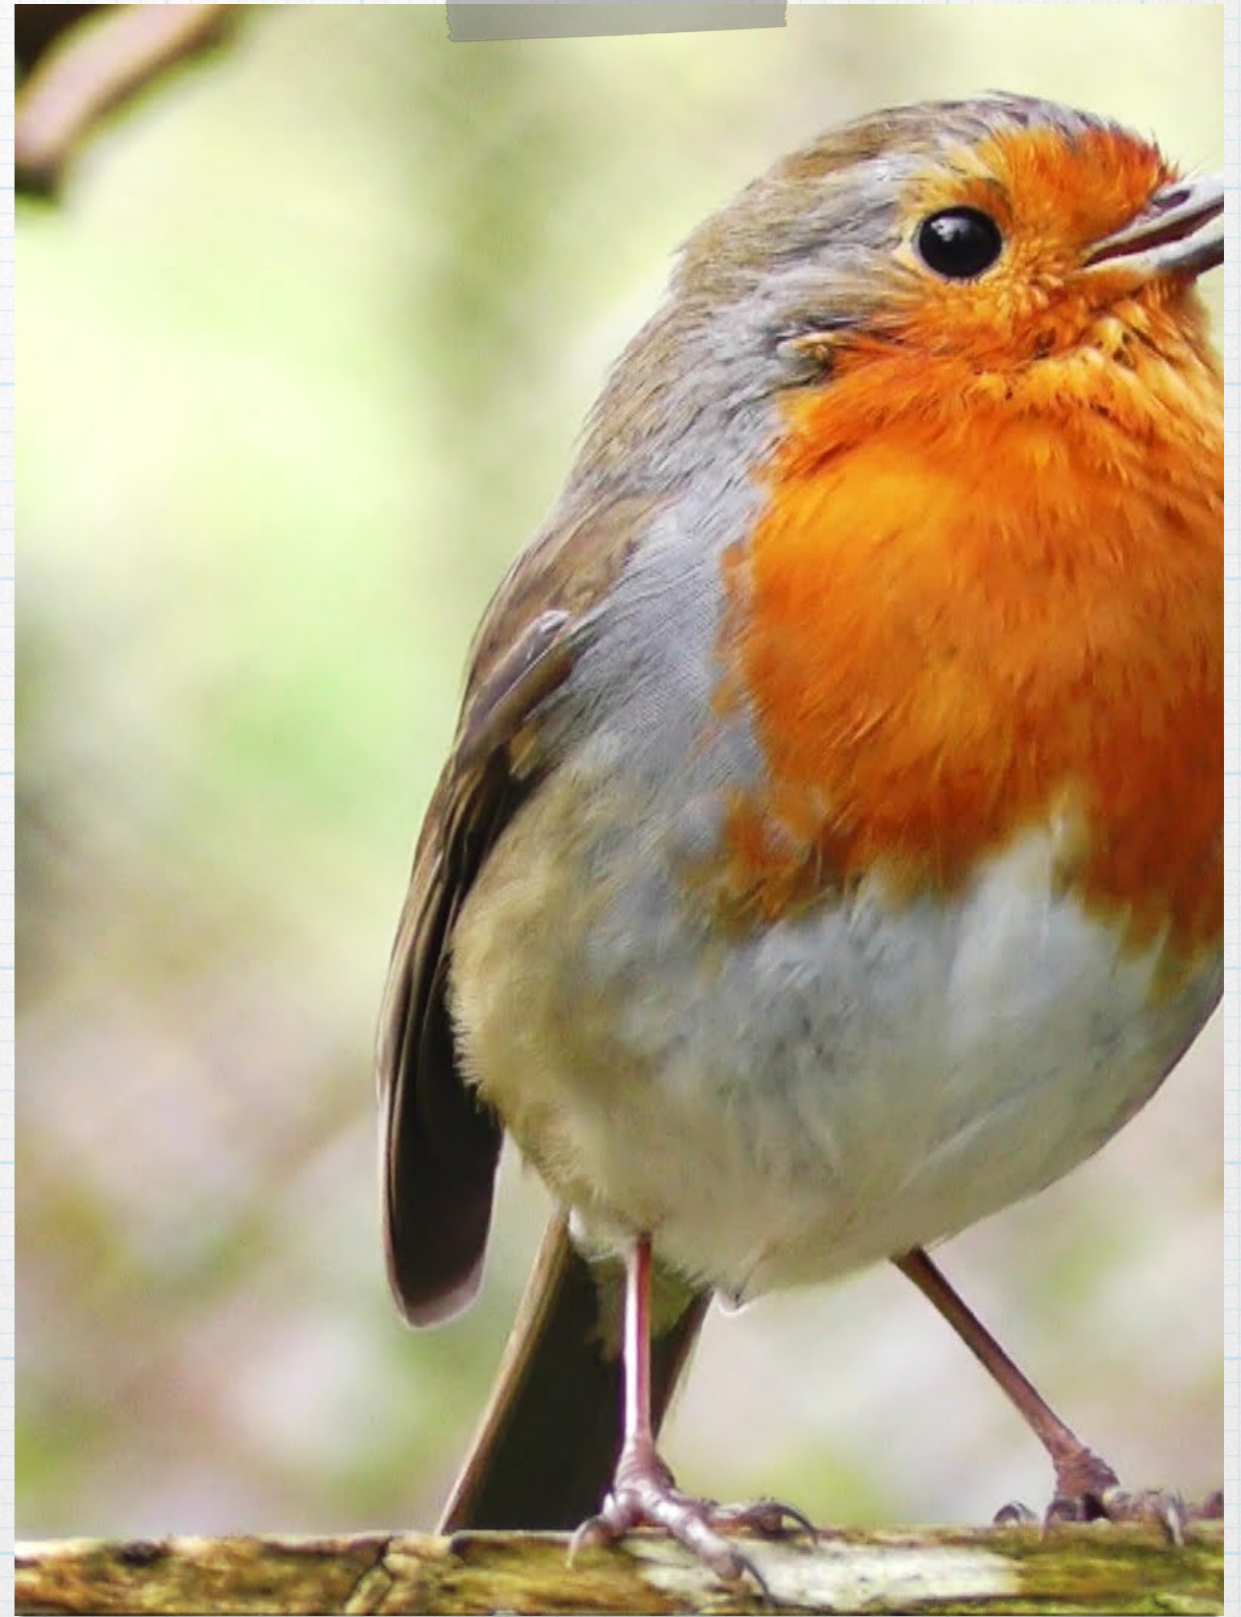

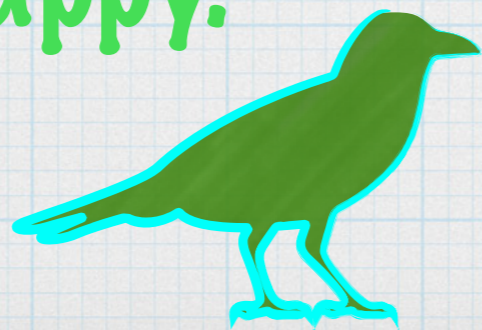

Why do we need pets?

Pets are great for people of all ages. They help with learning responsibility. Pets are also great for good health and happiness.

This is why I
want a bird.

Many animals make
great pets. The animal
I want to have as a
pet is a bird. I want a
bird because they are
cute. It would help me
feel happy.

One of the most important parts of taking care of a pet is feeding them. A bird eats seed, fruits and vegetables. A bird needs to be fed two times a day.

How we care for pets.

Caring for our pets is a very important part of owning a pet. We need to make sure they have food and water. We need to play with them and give them love. If our pet is sick, we take them to the vet, too! 🐣 🐮

Did you know?

A female bird is called a hen. A male bird is called a cock. A baby bird is called a chick. A group of birds is called a flock.

Pets can be a great addition to any family. Thank you for listening to my presentation.
