Why do we need pets?

Pets are great for people of any age. They help with learning responsibility. Pets are also great for good health and happiness.

This is why I want a Dog. Many animals make great pets. The animal I want to have as a pet is a Dog. I want a Dog because they are cute. It would help me feel happy.

One of the most important part of taking care of a pet is feeding them.  
A dogs eats special dog food. A dog needs to be fed two times a day.

How we care for pets. Caring for our pets is a very important part of owning a pet. We need to make sure they have food and water. We need to play with them and give them love. If our pet is sick, we take them to the vet too!

Did you know? A female dog is called a dog. A male dog is called a dog. A baby dog is called a puppy. A group of dogs is called a pack.

Pets can be a great addition to any family. Thank you for listening  
to my presentation on Dogs. 🦅
