

Hamsters by Sophia Yeh

Why do we need pets?

Pets are great for people of any age. They help with learning responsibility. Pets are also great for good health and happiness.

This is why I want a hamster.

Many animals make great pets. The animal I want to have is a hamster. I want a hamster because they are good. It would make me feel happy.

How we care pets

Caring for our pets is a very important part of owning a pet. We need to make sure they have food and water. We need to play with them love. If our pet is sick, we take them to the vet, too!

Did you know? A female hamster is called a doe. A male hamster is called a boar. A baby hamster is called a pup. A group of hamsters is called a horde.

One of the most important parts of taking care of a pet is feeding them. A hamster eats nuts and fruit. A hamster needs to be fed one time a day.

Pets can be a great addition to any family. Thank you for listening to my presentation.
