

Good evening everyone, today  
I want to talk about pet rabbits.

By Bella

# Why do we need pets?

Pets are great for people of any age.  
They help with learning responsibility.  
Pets are also great for good health and  
happiness.

*This is why I want a rabbit*

*Many animals make great pets. The animal I want to  
have as a pet is a rabbit.*

*I want a rabbit because they are cute. It would help me  
feel happy.*

## *Taking care of a rabbit*

One of the most important parts of taking care of a pet is feeding them. A rabbit eats grass fruits and vegetables. A rabbit needs to be fed two times a day.

# How we care for pets

Caring for our pets is a very important part of owning a pet. We need to make sure they have food and water. We need to play with them and give them love. If our pet is sick, we take them to the vet, too.

# What is a rabbit called?

A female rabbit is called a doe. A male rabbit is called a buck. A baby rabbit is called a kit. A group of rabbits is called a herd.

# All pets can be great

Pets can be a great addition to any family. They are friendly and cute and are good for children.

Thank you for listening to my presentation on rabbits.
