

Family by Evan

What is family?

*A family is who look after you 🦚 and who
take care of you, and who live with you and
give you something to eat. 🐉*

Types of family

*We are a full family. We have adults, kids and a pet. I'm
the single child in my family.*

My immediate Family

An immediate family you can see every week. Like your dad and mom and your pet. My grandma is immediate family, too. Every week we go to see my grandma.

Healthy family behavior

We exercise everyday. On the weekend we go to Wen Hsin park and ride bikes. Once I went hiking with my dad and my mom to Hsian Shan. We sweated a lot and I saw Taipei

101.

Unhealthy family behavior

Unhealthy family is a family who don't exercise. They don't eat healthy food, instead they eat candy and drink cola.

Thank you for listening to my presentation.
