Dogs by Joanna

History

Dogs are the oldest pets that humans have made friends with. Once wolves, over eight thousand years they have changed to be more friendly and useful for us.

Dogs breed

Dogs come in a huge variety. Some breeds, such as Beagles or Border collies, are designed to carry out specific jobs.

Dogs food

Dogs are carnivores. They need a lot of meat to be healthy. Dog food is made out of cows, pigs and sheep.

Appearance

Dogs have 4 legs allowing them to run very fast. They have powerful jaws that can carry things and bite with great power.

Image

Dogs are often seen as kind and friendly. Many movies have a dog act as a friend who is eager to please.

Jobs

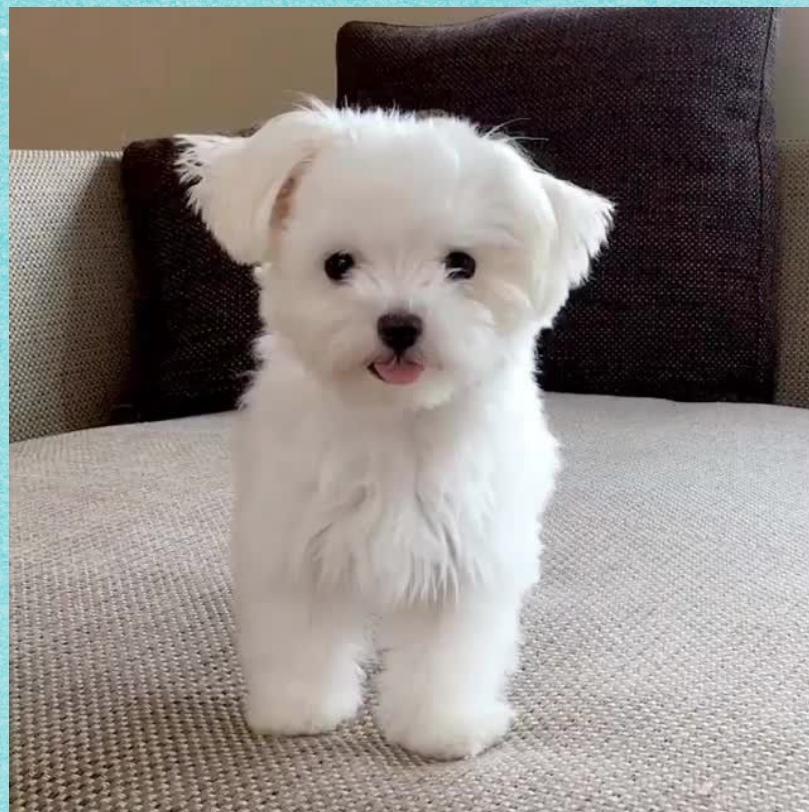

Dogs have worked with humans for thousands of years. One of the oldest jobs are as sheepdogs. Their speed and ability to learn have allowed them to work as sheepdogs.

My dog Amber

***I have a dog named Amber.
My dog is very cute. It is brown and
small. I like to play frisbee with my
dog. I will feed her everyday. Every
time my friend comes to my grandma's
house, we play with my dog.***

Thank you for listening to
my presentation on dogs.
