Caring for pets is an important part of owning a pet. We need to make sure they have food and water. We need to play with them and give them love. When they are sick, we need to take them to the vet too.

A female cat is called a queen. A male cat is called a Tom. A baby cat is called a kitten and a group of cats is called a clowder.

How many kittens are in a litter?

Most cats will have between 3 to 5 kittens at the same time. After the kittens are born the male cat will often leave. The female cat will protect the kittens until they are old enough to survive by themselves.
